P.O. Box 6  
Manchester, CA 95459

Notification No. 031-85  
Date Received 1/30/85  
Timber Harvest No. \_\_\_\_\_

We have received your notification of proposed operations on  
Brush Creek of Mendocino County.

Your proposed operation has been assigned to a Departmental representative who will contact you within 30 days from the date above.

Under provisions of the Fish and Game Code, you may not begin work on your proposed project until the Department has conducted an inspection and its recommendations (or if an agreement cannot be reached, "the decision of an arbitration panel) have been incorporated into your project.

These provisions of the Fish and Game Code are intended to protect and conserve California's fish and wildlife resources.

If you have any questions regarding this notification, please contact our Department at (707) 944-2011.

Sincerely,

Brian Hunter  
Regional Manager  
Region 3

Department has 30 days from receipt in which to make objections.

Mailing Address Telephone

B. Description of operation 1. The nature of said operations will be as follows:

Check all squares which apply.

- ~~Soil~~ sand, gravel, and/or ~~timber~~ removal or displacement  Logging
- Water diversion or ~~impoundment~~  Temporary, recreational or irrigation dam
- Mining—other than aggregate removal  Other—Describe below
- Road or bridge construction
- Levee or channel construction

2. Type of material removed, displaced or added  Soil  Sand  Gravel  Boulders  
Volume 100 yards more or less

3. Equipment to be used in the described site Backhoe & Bulldozer

4. Use of water (i.e., domestic, irrigation, gravel, washing, etc.) Irrigation of riparian lands; lesser amount is available while maintaining a continuous surface flow in Brush Creek

5. Describe type and density of vegetation to be affected, and estimate area involved. Construction & planting of willow jetties by hand labor-300 yds more or less.

6. What actions are proposed to protect fish and wildlife resources and/or mitigate for project impacts? Willow jetties provide natural habitat; irrigation pumps with screens; stockwatering entitlements require maintenance of continuous surface flows in Brush Creek to Brush Creek Lagoon.

7. Please attach and send to the Department any available project environmental documents.

8. Briefly describe proposed construction methods. Diagram or sketch below the location of your operation to clearly indicate the stream or other water and access from named public road. Indicate locked gates with an "X". Show existing features with a solid line (————) and proposed features with a broken line (-----). Show compass direction. Attach larger scale map if necessary.

1. Install irrigation pumps with screens for fish protection.
2. Make stream crossings with culverts as in previous years.
3. Realignment of channel with establishment of willow jetties in eroded areas as done in past
4. Removal of gravel.

N	Section 23	Section 24	A. area of willow jetties planted in 1984 still holding.
E	SE 1/4	SW 1/4	B. new areas to be planted in 1985
S	133-010-05	133-010-06
