

FIELD NOTE
Unnamed tributary
Sonoma County
July 10, 1968

Name of Stream - Unnamed tributary

Stream Section - Partial

From - $\frac{1}{4}$ mile upstream from the mouth to the dam and reservoir

Length - $\frac{1}{2}$ mile

Tributary To - Petaluma Creek Twp - 4N R - 6W Section - 7

Other Names - Unknown

River System - Petaluma Creek

Sources of Data - Personal observation by Jim Michaels on July 10, 1968

Extent of Observation - Surveyed on foot from the reservoir to a point $\frac{1}{4}$ mile upstream from the mouth.

Relation to Other Waters - This stream is a relatively unimportant secondary stream to Petaluma Creek.

General Estimate - The stream is primarily a drain for winter runoff and becomes dry during the summer months. The stream is paralleled by levee in the area downstream from Lakeville Road. Tidal influence ~~a~~ extends up into this unnamed stream a distance of about $\frac{1}{4}$ mile. No management program is recommended.

Sketch Map - See the map attached to Stage Gulch Creek survey.
